

Pipes – keyboard shortcuts and application options

Piotr Beling

February 17, 2022

- to **enter the menu** – press the pause icon in the top right corner of the screen or press `p` or `Esc`
- to **exit the menu** – select *resume* or press one of the following keys: `p`, `Esc`, `Backspace`
- to advance to the **next turn/round** – press anywhere on the screen (except the pause icon) or press one of the following keys: `space bar`, `Enter`, `→`
- to undo the game to the **previous turn** – select *undo* in the menu or press `u` or `←`
- to start a **new game** – select *new game* in the menu
- to enable/disable **dual display** (shown in Figure 1) – check/uncheck *dual display* in the menu or press `d` or `2/1`
- to enable/disable the **automatic ending of water flow rounds** after a few seconds – check/uncheck *water auto-end* in the menu

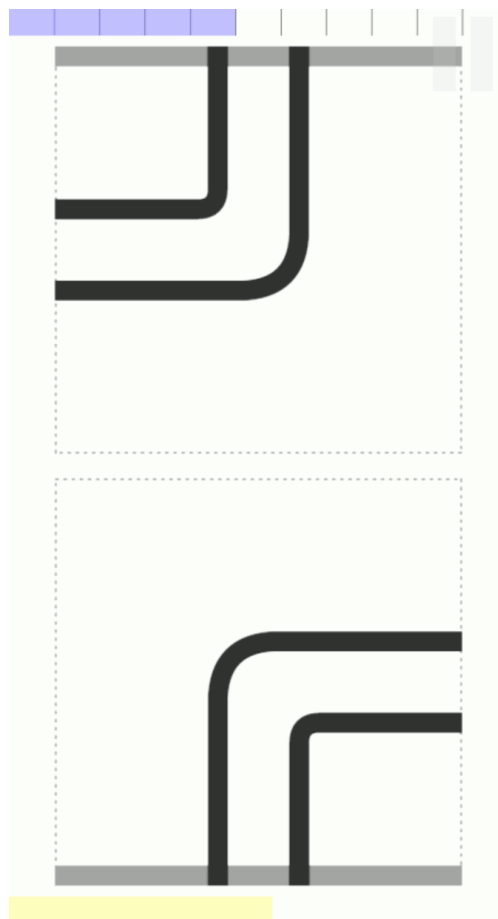

Figure 1: Screenshot of the application for the computer board game *Pipes* running in *dual display mode*. This mode is particularly useful when players can see the screen lying on a flat surface from various directions.
